Poland fully supports the multistakeholder model of  
Internet Governance, which in our opinion proved to be  
effective and led to the development of the Internet as  
we know it today. It is an important area of international  
activities of the Ministry of Digital Affairs mentioned in  
[the Strategic European Action Priorities](#). We would like  
to see the widest, active and substantive involvement  
of our national stakeholders in this process – please feel  
invited to join us. We also have the ambition to discuss,  
in the context of this common debate, some broadly  
understood digital issues with particular emphasis on  
the so-called Digital Single Market and other priority  
areas indicated in [Directions of Strategic Actions of the  
Minister of Digital Affairs in the field of computerization  
of public services](#).

Krzysztof Szubert, Secretary of State, Ministry of Digital Affairs.
